Summary

A highly motivated Lead UX designer with a focused eye on creating human-centered experiences. A confident leader who leverages his knowledge, experience, and management skills to develop human-first, maintainable, and sustainable solutions for mobile and desktop with correspondingly high business value.
A skilled and dedicated team player with experience in both government and private sectors, able to communicate with stakeholders, collaborate with partners, and clearly conceptualize his ideas to product engineers and team members.

Experience

UX Design Consultant
Prototype

Dubai
December 2021 - Present

Helping the design team to work on several projects by putting the design direction, guidelines, and working on bilingual design systems for both mobile and desktop.

Product Design Consultant
UAE MOID

Abu Dhabi
February 2021 - June 2021

Assisted the UAE Ministry of Infrastructure Development in increasing the accessibility of the geographic platform. The landing page has also been redesigned to be more user-friendly and reflect the Ministry's vision.

Lead Product Designer
Altkamul Altiqani

Sharjah
October 2019 - January 2022

Established a consistent design system that accelerated workflow. Planned, prototyped, and designed more than 3 mobile applications, Standardized the company's digital products to follow strong brand guidelines. Collaborated with marketing and sales teams on social media campaigns and reaching KPIs, increasing the company's reach and revenue. Also trained and mentored junior designers. Established the hiring criteria and interview process for the design team.

Education

Bachelor with Hons in GIS Engineering

Khartoum - Sudan
2018 - 2013

Sudan University of Science & Technology

Awards
